**...because the City of Mesquite will help pay for the cost!**

By Mesquite City Ordinance, residents are responsible for the repair of damaged sidewalks, curbs, gutters and driveway approaches. However, the City realizes that this type of maintenance is costly, so a 50/50 Cost Share Program was established to help defray expenses.

For example, the cost of repairing one square of concrete sidewalk (4'x 4') would cost \$64.00.

The citizen's share would be \$32.00, while the City would pay the rest.

**Quality Workmanship**

Under this program, you can feel confident in the contractor you have selected because it is the City of Mesquite. Obviously, this is a win-win situation no matter how you look at it!

If you would like to participate in this program call the Street Services Division at 972.216.6282. Funds are limited and are available on a first-come, first-served basis. Don't hesitate --- call today for a no-obligation cost estimate!
